

We are providing this information as a guide ONLY and we accept no responsibility for any car hire company used.

Car hire is essential to make the most of your stay at Villa Miya. Most car rental companies have a wide range of vehicles from small cars to jeeps and seven seaters. Terms and conditions vary but normally 1/4 tank of petrol is included as is the insurance and unlimited mileage. You will need to inform the company if you wish to visit Northern Cyprus.

Petrol is much cheaper than in the UK, all road signs are in English, driving is on the left and the method of driving is more "relaxed" than in the UK.

Consequently, road rage is almost completely unheard of, indicators tend to be used randomly and parking on pavements is common. The best advice we can offer is to go with the flow and the pace of life. Our opinion is that driving in Cyprus is safer than in the UK.

- Decide on the vehicle size and type you require. Ensure there is enough room for you, your party AND the luggage!
- Contact the car rental company directly with your enquiry and they will be able to supply you the very latest and best prices depending on the car you require and the time of year.
- When booking with smaller companies, supply the date of your arrival, flight number and arrival time.
- Companies normally either deliver the vehicle/s to the airport for your convenience or collect you and your party and deliver you to the villa first before taking the driver/s for the vehicle/s. We have heard of one company who take a regular visitor to her villa and deliver the car the following morning because she doesn't like driving in the dark.
- At the end of your stay, vehicle/s and keys are normally left at the airport.

- Ensure you read their terms and conditions.
- We have no connections with any rental company and offer the URLs listed below for guidance purposes ONLY.
- Vehicle types can be different and models available in Cyprus may not necessarily be common in the UK.
